WAARSCHUWING

WAARSCHUWING Houd altijd toezicht op je kind en controleer of de neus en mond vrij zijn.

WAARSCHUWING Vraag een zorgprofessional om advies wanneer je dit product wilt gebruiken voor te vroeg geboren kinderen, baby's met een laag geboortegewicht en kinderen met medische problemen.

WAARSCHUWING Zorg ervoor dat de kin van je baby niet op zijn borst rust, omdat dat de ademhaling kan belemmeren, wat tot verstikking kan leiden.

WAARSCHUWING Controleer of je kind veilig vastzit in de draagdoek om elk risico op vallen te vermijden.

Wees voorzichtig bij activiteiten als koken of schoonmaken, in de buurt van warmtebronnen of hete drankjes.

Draag nooit meer dan één kindje in je draagdoek.

De draagdoek is uitsluitend ontworpen om je kind in een naar jou gedraaide richting te dragen.

Je kan je evenwicht verliezen door jouw eigen bewegingen en die van het kind.

Kijk uit als je je bukt of voorover buigt.

Gebruik de draagdoek niet tijdens sportactiviteiten, zoals hardlopen, fietsen, zwemmen en skiën.

Het risico dat je kind uit de draagdoek valt, neemt toe als het beweeglijker wordt.

Berg je draagdoek buiten het bereik van kinderen op wanneer je hem niet gebruikt.

Controleer je draagdoek voor elk gebruik op eventuele slijtage en gebruikssporen, waaronder gescheurde naden en gescheurde stof.
